For a Better Town

Conducted by Grayling Board of Trade.

THE BOARD OF TRADE NEEDS YOU.

Are you interested in Grayling's prosperity? Does it make a difference to you if business is good? Are you glad to have new factories, new industries locate here? Does co-operation with industries already located here to extend their business, increase your chances to better yourself? Do you care if the people of Grayling are prosperous? Are you for Grayling?

Then you should join the Grayling Board of Trade—which represents the organized way of doing things for community betterment. You working alone can accomplish little for your city; but working with others in the organized Board of Trade, you can accomplish much.

You believers in Grayling, join the Board of Trade today.

The poor uninterested business man who failed to attend the meeting held Monday evening has missed something of interest to himself and his community. The indifference of some men get your goat. There are still some business men in this town who have not deemed it sufficient pleasure or profit to attend a single meeting this past summer. There must be a reason. Maybe it is because some fellows cannot stand to rub shoulders with their business associates. Some day we are going to let the whole town know who these men are.

The Board of Trade is going to ask you to become a member. Are you going to accept that invitation?

HELD RECEPTION FOR REV. JONES AND FAMILY.

A large crowd gathered at the Michelson Memorial church Friday evening to meet and welcome Rev. and Mrs. Jones and family who have come to Grayling to reside. Rev. Jones having become pastor of that church. The decorating committee with Mrs. L. J. Cross as chairman, together with the refreshment committee of which Mrs. A. J. Joseph was chairman made every effort to give the church parlor a welcoming air, and this added greatly to the success of the affair. Mrs. C. A. Canfield, president of the Ladies Aid society was the general chairman and she presented the following program that was thoroughly enjoyed by everyone:

Piano duet—Misses Ella and Margaret Hanson.

Vocal Solo—Mrs. Roy Milnes.

Vocal Solo—Miss Gneich.

Piano Solo—Mrs. Roy Bricker.

After the program lunch was served and visiting enjoyed. The affair was one of the pleasantest of the church occasions.

A SHABBY HOUSE OR A SHABBY MIND.

Haven't you been in houses where lovely flowers stood all about, and everything was spick-and-span, but the library table was strewn with papers and magazines of the trashiest description? Is it a good thing to have the furniture of the home the best that money can buy, and to furnish the mind with silly and disreputable things in the way of reading? Better by far have a shabby house than a shabby mind. The shabby furniture can be burned or sold, but what can be done for the shabby mind? Use The Youth's Companion to furnish your mind; and wherever you are—in plain or luxurious rooms—you will be so homesick for the Companion that you will be so homesick for the Companion for a year and see.

REINDEER TO BE TAKEN TO UP. PER MICHIGAN.

For some time it has been understood that it is the intention of the Public Utilities commission to remove Michigan herd of reindeer from the R. Hanson ranch near Grayling, to Luce county in the northern peninsula. An effort has been made to persuade Director John Baird to change his plans and to allow the herd to remain where they are, as they are doing well here and give promise of rapid increase in numbers. It was pointed out to the Department that the food here was of the right variety and also that there were no wolves to molest the herds.

Director Baird replied saying that he had promised the sportsmen of the Upper Michigan that the herd of reindeer would be placed there and that he wished to keep his agreement. Further he pointed out that Michigan's herd of elk had been turned loose in lower Michigan and also that this region is being stocked with Japanese ring-neck pheasants, and many other favors have been provided for lower Michigan sportsmen, and now, in the case of the reindeer, he believed that upper Michigan should be considered.

Referring to the reindeer he stated that there are cold climate animals and that the reindeer-moose, such as is found as food by these animals, is in abundance in Luce county where the herd will be placed. As to the danger of being killed by wolves he assured in his letter to the Board of Trade that there is no danger. Except hunters and trappers are engaged the year around in hunting and killing all undesirable animals and birds of prey and it is expected that such will be cleaned out of Michigan entirely within a few years.

Just when the herd will be removed is not known here but it is expected that it will be soon as everything is in readiness at their new place of destiny to receive them. Mr. Baird says he is certain that it won't be many years before there will be substantial herds of these animals to distribute to all sections of the state wherever they will thrive, as a result of their introduction into our state.

FARM BUREAU NOTES

R. D. BAILEY
County Agricultural Agent

LIMESTONE LEGUMES LIVESTOCK

MEAN PROFITS IN FARMING

In October.

"October's bright with colors; The skies are blue and gold, The woods are full of crimson As ever they can hold, The fields are brown and yellow The forest is silver white, October's bright with colors Oh, such a pretty sight."

All Seem Satisfied.

A few weeks ago I placed in Farm Bureau Notes the statement that I have a friend who is a skilled landscape gardener; and that I would try to get him to come up to see me; and while here he would give free suggestions to anyone as to what to plant, and where to plant it, to beautify the yard.

So far only six or seven have taken advantage of this offer. It will take many more than that or I will not bother with it.

This should be done before snow comes for three reasons: So best view of premises can be had; before people begin to buy flowers, trees and shrubs of traveling agents, so that they shall buy the right and not the wrong kind; and so bulbs for next spring's blooming can be planted this fall which is necessary.

Some attention to trees, lawns and shrubbery would not hurt the looks of Grayling a bit.

In Your Conscience Clear?

How can it be until you have:

Selected and properly dried a lot of seed corn.

Hit selected a few bushels of seed potatoes.

Built a small ice house, even of rough lumber.

Put the hen house in good condition by cleaning, spraying, white washing, stopping cracks, putting in more windows, box of gravel, box of sand for dusting, box of oyster shell.

Got every possible shock of corn under cover.

Hauled every possible shovelful of stable manure.

Applied it to every possible bit of soil.

Fall plowed every possible bit of level, manured soil.

Built a simple cement gutter in the horse barn and cow barn to catch liquid gold that runs to waste.

A great big pile of dry wood under cover.

Made good sensible plans to benefit the farm and the family by doing some good progressive thing.

I am Looking for a Man.

I am not a detective; yet, I am looking for a man. There is a certain man in this county that I am looking for. I wish very much to find him. I have no idea where he is hiding away. I may have looked him in the face and not have known that he was the man.

It is nothing bad that I want him for. It is for something good. It is to show him the chance he has to do good. That is not quite so attractive, is it, as if there were a little dash of evil and law breaking connected with it?

Still, a chance to do good should never be overlooked by anyone.

The man I am looking for is one

whom I want to persuade to send his boy or girl down to our Agricultural College for one of the extremely helpful Short Courses.

Where is the man? If I don't find him, won't he please speak out, and say: "I'll send my boy or older girl. I will invest that much in humanity."

The Time Soon Here.

Time is flying. We can't safely make comfortable delays.

The mill will never grind with the water that is past.

These Short Courses soon begin. Some do send their children. Why not you? Can't afford it? Ah, our chickens have come home to roost. We now, while a generous-minded impulse is on us, reap the bitter fruit of our not being more open-minded and progressive, hence successful, in the past.

We now reap, with tears, the fruit of obstinacy and indifference.

Oh! Had we only listened to the urgings of our farm papers and our county agent!

If we had only planted certified potatoes instead of those common things, we would have high-priced seed to sell instead of thirty cent potatoes!

Oh! Why didn't we get into purebred stock sooner when the county agent begged us to, so we would now have hundred fifty dollar bred heifers to sell instead of just beef at five cents a pound!

Why could not some one have made us cull out our cows, and make us feed right, so we could give the dear boy or dear girl the chance to which they have a right in a winter's Short Course. Why, we could have paid the boy's way with cream checks if we had paid attention to the urgings of the county agent about our cows!

Oh, why didn't we give the girl a start with purebred poultry, so she could have helped herself some!

How narrow, selfish, small our lives have been! We see it all too plainly now, when we would like to use the fruits of a broad-minded, industrious, well-managed life to help loved ones!

Short Courses.

A 16 weeks course in General Agriculture begins Oct. 30.

An 8 weeks course in General Agriculture begins Jan. 1.

A 12 weeks Dairy Production begins Jan. 1.

Horticultural (fruit) Course, 8 weeks, begins Jan. 1.

Poultry Course, 8 weeks begins Jan. 1.

Truck and Tractor Course, 4 weeks begins November 27.

Another Truck and Tractor Course 4 weeks begins Jan. 8.

Another Truck and Tractor Course 4 weeks begins Feb. 5.

Another Truck and Tractor Course 4 weeks begins March 5.

Farmers Week, 1 week begins Jan. 29.

Who Will Have It?

Who will have the proud distinction of saying: "I am the first man in the county to send my child down to a Short Course at the College?"

Young Men and Young Women Have Borrowed.

I have known young men and women to borrow money to give themselves a course; then have come back and have easily paid the debt with the results of labor better applied as a result of the course.

NOTICE—NO HUNTING.

Notice is hereby given that hunting or trespassing is not allowed on my premises, opposite the County Infirmary. Violators will be prosecuted according to law.

ARMY PLANE FLIES 248 MILES AN HOUR

ALL SPEED RECORDS OF WORLD ARE SHATTERED IN TESTS AT SELFRIDGE FIELD

FASTEST MAN HAS EVER FLOWN

Lieutenant Maughan, Winner of Last Week's Pulitzer Trophy Flight, Sets Hair-Raising Pace.

Mt. Clemens—Traveling at a greater speed than any human being ever before attained, Lieutenant R. L. Maughan, a United States army pilot, Monday set a new world's airplane speed record by covering a one kilometer course, at the rate of 248.5 miles an hour.

The record was made during official army and navy tests of the speed planes that participated in the national air races at Selfridge field last week, and was electrically timed by officers from McCook Field.

Aeronautical engineers and army and navy officers who witnessed the flight were astounded. The demonstration, they declared, proved that there was no limit to the speed that might be attained in the air.

Lieutenant Maughan made the record breaking flight in the same plane with which he won the Pulitzer trophy race on Saturday. The machine is a Curtiss Army biplane, powered with a Curtiss 400 horse power motor.

After setting the new record, Lieutenant Maughan continued his flight to show that the tremendous pace could be maintained. On four laps he was timed at the rate of 232.22 miles an hour and his average for eight laps was 229 miles per hour.

Examination of the machine after the flight disclosed that it was in perfect condition, and that nothing in the nature of a "trick" flight figured in the record performance.

Lieutenant Maughan added to the astonishment of the pilots and officials on the field by flying approximately one mile with the machine on its side. The feat really meant that he was flying without the aid of wings.

The "Ape Man" of Java

One of the most primitive of the human species has been discovered in the remains of the "trinit" or ape man of Java, whose indeterminate character is indicated by the name "ape man." A scientific reconstruction of the head of a "trinit" shows a degree of development of forehead, which is emphatically more marked than that of either the gibbon or the orang, the chimpanzee or the gorilla, designated as "anthropoid apes," because of their resemblance to man. The restoration of the skull and head of the "trinit," or ape man, is based upon a discovered brain case and two teeth of this early inhabitant of Java.

What Does "Carat" Mean?
The word "carat" is used in the weighing of gold and precious stones and the exact weight of a carat is 3.168 grains or 200 milligrams. This represents the weight of gold, the actual amount or proportion of pure gold in conjunction with the balance of the metal an article is composed of. The name seems to have come from the Arabic "qarrat," from the Greek beaton, the fruit of the carob or locust tree, used also as a weight. In determining the fineness of gold, the troy pound, ounce or other weight is divided into 24 parts and each part is called a "carat." 24 carats being considered the maximum, a "purer" hence as 18-carat gold, this is considered 75 per cent pure gold, and 10 parts to 14 parts gold.

HOME TALENT CARNIVAL WINS

Legion Post of Vicksburg, Miss., Raises More Than \$5,000 for Home for Organization.

More than \$5,000 was obtained by Legion Post No. 8 of the American Legion at Vicksburg, Miss., by a carnival put on by home talent recently, assuring the post of a Legion home in Vicksburg.

All of the shows and booths were built by Legionnaires with the exception of those operated by the Rotarians, Kiwanis and Knights of Columbus, which organizations built their own ducking tank, show and dance platform, respectively. Every organization in the city was asked to conduct a booth or show of some kind, using its own emblem or insignia and name, paying its expenses out of the

One of the Carnival Tents.

money taken in and turning the profits over to Legion post.

The Board of Trade, Chamber of Commerce, Civic League, League of Women Voters, Rotary club, Exchange club, Kiwanis club, Knights of Columbus, Muscular club, Jewish club, Vicksburg Shrine club, Italian Social club, Elks, Woodmen of the World, Loyal Order of Moose, Daughters of the Confederacy, the American Legion auxiliary, Vulture Lodge No. 101, de la So-cietes des 40 Hommes et 8 Chevaux were among the organizations using their own members as workers and performers.

A pretty girl and ugly man contest was held. It was a great community entertainment. All profits stayed in the city to go into a civic improvement. There were no sore spots after it was over, as is the case too often when a professional carnival company uses the Legion name to make a success of such an affair. Mayor Hayes of Vicksburg had this to say of it:

"Not one incident that would mar the pleasure of anyone occurred during the five nights. Everybody wanted to help make the carnival a success, and I never saw a happier community in my life. Vicksburg is 100 per cent for the American Legion."

NOW 82, AIDED IN TWO WARS

Oldest Member of Paris American Legion Post Auxiliary, Awarded Two Medals by Government.

Mrs. Emily C. Hellig scraped lint for the wounded soldiers of the Union army during the Civil war and for more than three years during the World war worked in the surgical dressing room of the American Ambulance hospital at Neuilly, France. She is the oldest member of the American Legion auxiliary to Paris post, her son, Sterling Hellig, author and newspaper man, having served with the American army.

During the Civil war Mrs. Hellig took part in the great sanitary fair at Philadelphia when ladies gave their sheets, tablecloths and napkins from which the lint was unravelled and re-rolled into tons of bandages. There were no gauze compresses in those days. These last, sixty years after her first war experience, she made at Neuilly. For her work from 1915 to 1918 she was awarded two medals by the French government.

She was eighty-two last April and in a recent letter to Mrs. Gilbert Jones, president of the Paris post auxiliary, she said it was a joy to have been associated with "those noble American women." Mrs. Hellig was born in Wilkesbarre, Pa. She was a sister of Rear Admiral George F. Kuntz, U. S. N., retired, who died a few months ago. Admiral Kuntz was with Farragut in his attacks on the forts along the Mississippi river, but returned to active duty with the World war.

The American vessel Savannah crossed the Atlantic from Savannah, Ga., to Liverpool in 1819 in 29 days 11 hours. The trip was made partly under steam but mainly by sail. In 1833 the Royal William, of 830 tons, built in Canada, made the first transatlantic voyage entirely under steam.

Entered as second class matter at
the Postoffice, Grayling, Mich., under
the act of Congress of March 3, 1879
O. P. Schumann, Editor and Proprietor
THURSDAY, OCTOBER 10, 1922.

THE FISCAL YEAR of the Board
of Trade will end early in November
and plans are being made to put on
a membership drive at once to in-
crease the membership of that or-
ganization and also to place the finan-
cial footing of the Board on a better
basis. Such an institution needs fi-
nances as well as members in order
to be able to conduct its efforts ef-
fectively. Already some of the mem-
bers have had to dig down into their
own pockets in order to meet some
accounts that have been made in the
efforts to benefit Grayling. When
the soliciting committee approaches
you, please do not dodge them or offer
some unpleasant, sarcastic remark
but instead, tell them that you are
heartily in accord with their efforts
and will do all you can to help mat-
ters along. If you are a business
man it will be very becoming for you
to sign the dotted line and pay in
your membership dues for one year,
which are \$15.00. Most cities charge
a membership fee of from \$25 to \$100
per year. Then after you have joined
do not forget that there is still a re-
sponsibility that you owe and that is

that you give your talents in such
service for the good of the public that
you are able to give. The \$15.00 is
only a small part of the need of the
Board of Trade, each of us is needed
personally. Take a part in the meet-
ings and discussions. If you have
ideas to advance, let them have them
—go the limit. Every suggestion will
be considered.

What will you receive in return?
That we cannot prophesy. At any
rate we may put it in our pipes and
smoke it that unless real organized ef-
forts are made to advance the inter-
ests of Grayling, then we are NOT
going to advance. It should not take
a very wise person to understand what
is coming to us if we don't keep Gray-
ling on an upward move. George is
not going to do this all alone—every-
one of us must help.

There may be a few who feel that
they should not join because of the
cost, and such persons should remem-
ber each of us has just as good an ex-
cuse as he has and that such excuses
are worthless.

Welcome the soliciting committee
when they come to your place. No
the shirt factory is not lost, and
there are the best of reasons to believe
much to do before this can be assured,
and someone has got to do it. Presi-
dent Peterson and the business com-
mittee have just as good a right to lay
down on the job now as anyone of us,
but they will be mighty poor citizens
if they do. But how about us? Isn't
our responsibility just as great? The
greatest generals are going to fail if
they don't have the army behind them.

Mr. Bailey, our agricultural agent
called at our school to help us in our

Heard from one of our boys after
Mr. Bailey's visit: "I don't think Mr.
Bailey went far in school do you Mrs.
Heath? Just think he had to ask me
how to spell 'ice'!"
Frank Jostling says he never saw
corn flitters.
Teacher: Name an animal of South
America.

For their language work Friday,

A REMARKABLE RECORD.
Chamberlain's Cough Remedy has a
remarkable record. It has been in
use for colds, croup and whooping
cough for almost half a century and
has notably grown in favor and
popularity as its good qualities be-
come better known. It is the stand-
ard and main reliance for these dis-
eases in thousands of homes. The
fact that it can always be depended
upon not to cause any harm to the
system is its true value.

Republican Committee
Do you want to abandon the work so well begun, stagnate
your Government for two years, and invite a return to the
policies and conditions of the last administration, or are
you in favor of going ahead with the Republican party in
control of the Congress as well as the executive offices?

has been fully up to the high stand-

The open season for hunting partridge and rabbits began Sunday, October 15, and was marked by a large number of hunters in the woods. Many a fellow filled his limit of five partridges while others were not so successful. There was hardly a patch of wild land that was not given the once over by hunters and before the first night of the open season the birds were scattered from one end of the forest to the other, instead of remaining in flocks as they were before the hunting began. The weather was ideal and hundreds took advantage of it by getting out into the open to partake of the pleasures of hunting the game birds, a privilege God has provided for the inhabitants of this earth.

Frank Michelson who is visiting in Grayling at this time, tells of a pleasant trip he and Mrs. Michelson took recently when they visited Albert Groulett at Muncie, and N. P. Mr. Michelson says they found both families well and pleasantly situated. Each conducted an extensive retail lumber business. Three days were spent at these places and all enjoyed talking over Grayling times. Later, Mr. and Mrs. Michelson also visited Mrs. David Trotter of Toledo, who also was a former Graylingite. Mr. Trotter, who is now deceased, also was a former Salling Hanson Company employee and for a number of years before his death operated a retail lumber yard at Toledo. A letter received Wednesday from the auditing department of the Detroit News, signed by our young friend, Miss Helen Bingham, states that their Editor is very generous and permits former "Snowflake" subscribers to check up on its contents each week and says that he is convinced that by the time it has been on his desk a day that the AVALANCHE is the most valuable newspaper coming to his desk. Certainly we are grateful for so fine a compliment coming from a staff editor of such a newspaper as the Detroit News, and we hope our Grayling friends will continue to enjoy the AVALANCHE whenever they have the opportunity to do so. Miss Bingham is a graduate of the Grayling schools and is a daughter of Charles E. Bingham, a former resident of this city.

Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

Happy Results in Both Cases

St. Joseph, Missouri.—"Both of my sides ached and hurt me so that I could not move or do any of my work. There was heavy pressure and pain through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would follow. After taking several bottles I felt it was helping me, and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."—Mrs. Wm. Lockman, 613 N. 4th St., St. Joseph, Mo.

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work and I was in a terrible little book and that is how I came to take Lydia E. Pinkham's medicine. I have been advised by attending physicians and Lydia E. Pinkham's Vegetable Compound."

Could There Be a Fish Famine?

How many fish are in the sea? Are we catching them too fast? Can we keep up our Friday diet on other days and be sure that the taste we are cultivating will continue to be satisfied? Nobody seems to know. Will P. Thompson of the California Fish and Game commission has told the American Association for the Advancement of Science.

Mr. Thompson thinks we are taking long chances by not studying out and wants biologists to get accurate figures on the subject. We cannot continue to double the catch every ten years without reaching the limit some time, and we ought to know the reasons why many fish come to net one time and not so many the next. The weather and ocean conditions have a tremendous effect as well as other natural changes which have nothing to do with over-fishing. We ought to know how fast they grow and where they go when they are not here.

DAIRY FACTS

IMPROVEMENT OF DAIRY COW

Department of Agriculture Has Six High-Producing Animals on Its Farm at Beltsville.

(Prepared by the United States Department of Agriculture.)

The improvement of dairy cows means a great deal more than increased profits to the dairyman. It means cheaper food and more milk, the least bones and muscle maker for children. What this improvement means is brought out forcefully by a poster prepared by the United States Department of Agriculture and sent free to interested persons.

An ordinary cow or scrub produces only enough milk to feed five children.

From the jetties where the tank steamers are unloaded pipe lines are laid to eight tanks, which are capable of holding 10,000 tons of oil. Pumps convey the oil from these tanks to storage tanks four miles away. The storage tanks have a total capacity of nearly 21,000,000 gallons. With this equipment a 10,000-ton oil tanker can be unloaded in about 12 hours, and can be reloaded with refined oil in 20 hours. Crude oil arriving at the dock one day can be returned as refined oil on the third day.

MARY GRAHAM BONNER

DAYS' DON'TS

"It's absurd," said Saturday, "to forget that Days, too, say 'Don't'."

"But they do not only say 'don't' to children. They say it to grownups, too."

"Now yesterday, a lady wanted very much to wash out a few waists and handkerchiefs. Friday didn't object to that."

"But when it came to hanging them out to dry, Friday said:

"Don't do that, for it will rain."

"And sure enough it did rain."

"Then last Tuesday a lady was going out if it was fine and sunny. But instead it rained, and so Tuesday said to the lady:

"Don't go out in the rain. You have a cold and you will get wet and catch more."

"Now today it is raining. I don't care to have it rain often on a Saturday. Somehow it doesn't seem fair. I had promised the King of the Clouds for a long time that he could come around on my day."

"And so now when the people are wondering if it will keep on raining all day, I try to say to them:

"Yes, look at the clouds. You see it looks like a whole day of this kind of weather. Don't go on your picnics today."

"Now, all of us say 'Don't,' again and again."

"But when people say 'Don't,' they are usually grownups saying this to children, and as I explained before we have our 'Don'ts' for everyone of every age."

"And it is only natural that we should say 'Don't' once in a while."

"For most of the time we are anxious for people to go ahead with their plans."

"Often we like to tell people to go ahead even if it will rain and not

CONSIDER USE OF AIRSHIPS

Possibility of Their Successful Employment in Making Aerial Observations of the Himalayas.

Consideration has been given to the possibility of aerial observations in the Himalayas. The range, it appears, has only six peaks above 27,000 feet high, and an aviator flying at about 25,000 or 24,000 feet should have no difficulty in crossing it the highest peaks were avoided, while, if he chose certain of the gorges, an altitude of some 19,000 feet would suffice. The greatest of the many obstacles to be encountered is the mountain sickness, which occurs in the highest altitudes through deficiency of oxygen. The gradual climber, going aloft, is less handicapped in this respect than the aviator who rises suddenly from sea level in his machine. On the other hand, the pedestrian has more fatigue to undergo, and this practically equalizes matters. The chief consideration in any case is an adequate supply of oxygen, with a proper inhaler.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system, the remedy is recommended by those who have been benefited to those who are in need of it. A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in restoring kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by postal order. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Advertisement.

Forest Station Established. So marked has been the destruction of the timber lands in the southern Appalachian region that the Department of Agriculture has established a new forest experiment station at Asheville, N. C., to determine methods of conservation and control, says the Scientific American. This station is the first of its kind in the eastern states. A further object of the establishment is to secure information for foresters regarding the handling of southern trees.

JOSEPH CROWELL.

CROWELL MIRRORS LIFE

Noted Make-Up Artist Coming Soon to Lyceum.

For a number of years Joseph Crowell has been one of the leading character impersonators in New England, using wigs and make-up. In an adept manner, Mr. Crowell effects all his changes of character in full view of his audience. All his portrayals are "bull-eyes," so natural and true to life are they. This season he is touring this section under interstate auspices and will be an important number of the Lyceum course here.

In Mr. Crowell's program one comical, whimsical character follows another with stories, talking-songs, dialect, and planologues. Although only one man is on the platform, still it is far from being a "one-man show," since so many different characters and personalities are introduced.
